Paramedics arrive about 20 minutes before the start of all ski jumping

Is there any injury or illness, the medical personell will order AMK and ordering additional ambulances for these patients that should continue to lokal or Central-Hospital,

This is so Medical dont have to travel from the skijumping hill and stop Scheduled jumping. (This will only occur with rapid processing of patient to hospital)

If someone falls or beeing injured in hill, training or competition will be stopped at once, and will not start again before medical personell is back in hill.

All medical personell will get coursed in taking off bindings and other equipment by Kim R BJORNDALEN before ski-jumping start.

The Hospital is informed that it is Ski-jumping competition in Tveitanbakken Thursday to Saturday.
